- **Tech Stack: NextJs 13.4.12 | Javascript | TailwindCss | Context-API | framer-motion | MongoDB | NodeJs | ExpressJs | Next-Auth | JsonWebToken | Webpack |**

PROFESSIONAL EXPERIENCE

Full Stack Developer

Questtt

02/2023 - Present

Bangalore

Responsibilities

- Led the full-stack development of the company website, creating a highly performant, responsive, and visually appealing web application using Next.js, TypeScript, Restful-API, redux,redux-toolkit, framer-motion andTailwind CSS.
- Developed a comprehensive platform catering to educators, administrators, and SuperAdmins, using ReactJS, Redux, Redux Toolkit, and Chakra UI to create a feature-rich interface.
- Implemented critical functionalities, including robust user authentication, role-based access control, efficient data management, and dynamic dashboard creation.

Frontend Engineer

Freelancer

02/2022 - 01/2023

Tasks

- Orchestrated dynamic website development using ReactJS, HTML5, CSS3, NodeJs, ExpressJs, MongoDB and leveraged UI libraries such as Material UI and Chakra UI to deliver exceptional user experiences.
- Achieved peak performance and ensured cross-browser compatibility, while strictly adhering to WCAG guidelines for web accessibility.
- Conducted comprehensive testing and debugging with advanced tools like Jest and Chrome DevTools, while efficiently managing version control through Git.
